

VIGILANT MOBILE COMPANION

PARKING AND MOBILITY SOLUTIONS

On-street or off-street, Vigilant Mobile Companion allows parking enforcement officers to quickly scan plates and receive real-time alerts.

WITHOUT VIGILANT MOBILE COMPANION

WITH VIGILANT MOBILE COMPANION

On-street and off-street parking enforcement officers are manually typing in license plates to check for payment status and/or using antiquated methods to track timed parking.

Using the video stream on your smartphone or tablet, license plates are quickly scanned, uploaded and alerts are generated for vehicles in violation.

VIGILANT MOBILE COMPANION IN ACTION

Vigilant Mobile Companion puts the power of LPR in the pocket of every parking enforcement officer allowing more efficient enforcement in areas that were not easily monitored by a mobile LPR vehicle.

- PARKING ENFORCEMENT DIRECTOR, CALIFORNIA MUNICIPALITY

EFFICIENCY IN THE PALM OF YOUR HAND

Vigilant Mobile Companion provides access to these features:

SCAN PLATES

Single-plate and multi-plate scanning

LOCATIONS

Syncs with pre-configured rules set in Vigilant ClientPortal

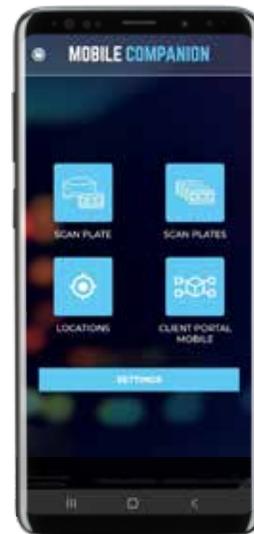

VIGILANT CLIENTPORTAL MOBILE

Vigilant ClientPortal access from your mobile device

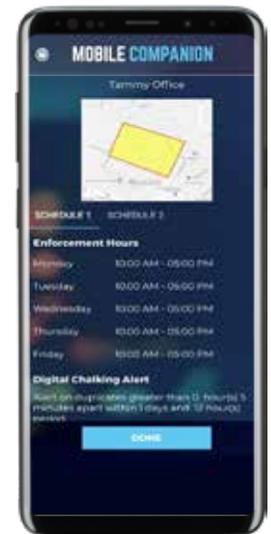

EXTEND THE REACH OF VIGILANT CLIENTPORTAL

With Vigilant Mobile Companion, officers can:

- Supplement your mobile LPR fleet with Vigilant Mobile Companion to ensure all parking enforcement officers can benefit from LPR technologies.
- Set Vigilant Mobile Companion to multi-plate mode to easily enforce the parking area to capture plates of vehicles at scale, saving time and manpower.
- Access the same analytical tools found in Vigilant ClientPortal to identify all vehicles seen in violation by any mobile LPR vehicle and other Vigilant Mobile Companion users or to help a parker find their vehicle.
- Using Vigilant ClientPortal Mobile, easily view vehicles in violation in a specific geographic area or through in-app alerts.
