ENDPOINT SECURITY SERVICES FOR ENTERPRISE IT

BLIND SPOTS CAN MAKE YOUR ORGANIZATION VULNERABLE

Traditional enterprise endpoint security tools have blind spots, making them unable to see and stop advanced threats on laptops, desktops, tablets, servers and mobile devices. Many organizations are turning to next generation Endpoint Detection and Response (EDR) solutions that offer more capabilities than traditional antivirus solutions to detect and prevent cyber-attacks. These next-generation endpoint security solutions also enable faster response times to a security incident or breach. However, they can be time-consuming and costly to deploy and manage. They require EDR expertise, and the ability to respond to threats quickly, if they make it through defenses.

PROTECT END USERS AND DEVICES

We've built endpoint security monitoring capabilities at Motorola Solutions as part of our Advanced Threat Detection and Response Services to ensure you get optimal benefit from EDR and show ROI quickly. We integrate several EDR next-generation solutions into our ActiveEye^{SM} platform, including Carbon Black, CrowdStrike and Sophos.

This gives you and our Security Operations Center (SOC) the ability to investigate and respond to threats from a centralized management console. The cost is typically less than you would pay to staff and train even one cybersecurity expert. Plus, you'll get a whole team with broad expertise responding to threats 24/7 to improve your overall security program.

OF ORGANIZATIONS SEE AN INCREASE OR SIGNIFICANT INCREASE IN ENDPOINT SECURITY RISK[1]

MOTOROLA SOLUTIONS

CONTINUOUS THREAT MONITORING

ActiveEye continuously monitors all endpoint activity and analyzes the data in real time to automatically identify threat activity, enabling it to both detect and prevent advanced threats as they happen. All activity is visible in the ActiveEye platform so your security team can rapidly investigate incidents, respond to alerts and proactively hunt for new threats. In addition, this activity can be correlated with activity and alerts from your network, as well as cloud applications and infrastructure, offering a comprehensive view of your security environment to detect and respond to those threats even faster.

MANAGE, DETECT, RESPOND

Activity Alerts	Compliance Reporting	Behavior Analytics	Threat Intelligence	Incident Response

KEY FEATURES

COMPLETE VISIBILITY, WHERE YOU NEED IT MOST

Get insights into all activity in real time to understand where attacks originate and how far threat actors may have spread if they access your systems. Long-term data storage helps you investigate incidents during or after an incident or attack.

ADVANCED THREAT DETECTION, ON AND OFF THE NETWORK

Identify threats using known signatures and threat intelligence as well as advanced analytics to detect fileless attacks. ActiveEye prioritizes the most actionable threats to investigate first.

EXPERT INVESTIGATION, AROUND THE CLOCK

Endpoint security experts with daily experience containing threats work as a team to assess the situation and develop a comprehensive response. This team is available 24/7 and can begin an investigation within minutes.

FAST RESPONSE AND CONTAINMENT

Our SOC will initiate response actions from our ActiveEye console within minutes to contain threats. ActiveEye automates data collection to optimize the resolution of similar threats in the future that are not necessarily malicious software.

MOTOROLA SOLUTIONS - YOUR TRUSTED PARTNER

As a leading provider of mission-critical solutions, we understand your mission can only be as secure as your partners enable you to be. Our goal is to provide you with transparency, accountability and security that's built-in from the start.

We believe that our set of highly knowledgeable people with industry certifications, best-in-class organizational policies and procedures, and state-of-the-art automation and analytics tools enables us to uniquely deliver enhanced cybersecurity solutions that address your needs today and in the future.

GLOBAL SCALE & EXPERIENCE

300+
SECURITY EXPERTS FOCUSED ON 24/7 MONITORING & RESPONSE

9B
**SECURITY EVENTS PROACTIVELY MONITORED EACH DAY**

100%
CO-MANAGED APPROACH FOR VISIBILITY AND CONTROL

20+
YEARS OF EXPERIENCE DEVELOPING CYBERSECURITY SOLUTIONS

GET VISIBILITY INTO YOUR SYSTEM

Our management portal provides a view of all endpoint security risks for your organization. At any time you can log into the ActiveEye portal for full visibility into your system's security, so you can have peace of mind that everything is running smoothly.
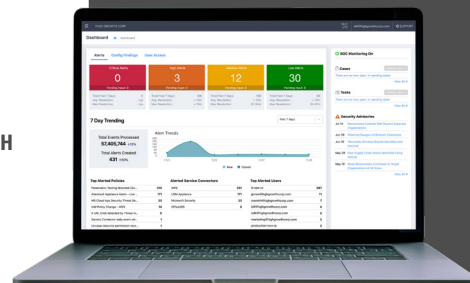

Monitor all your endpoint security activity in one place.
