

MOTOTRBO CARE

FOR THE LONG-TERM

Keeping your communication systems operating at peak performance requires long-term planning and continuous attention. Otherwise, you may run the risk of getting further behind the technology curve — unable to take advantage of new capabilities and the latest integration abilities.

Ensure you have the latest features and technology upgrades to help keep your systems at peak efficiency, all while simplifying the process and reducing the administrative burden for your team. Unlock new integration capabilities quickly without large system overhauls. MOTOTRBO Care is a complete package of hardware, software and enhanced support. It helps keep your MOTOTRBO Capacity Max systems operating at peak performance while providing predictable operating costs and simplifying system management, all while backed up by decades of Motorola Solutions experience.

SIMPLIFY SYSTEM LIFECYCLE PLANNING

MOTOTRBO Care ensures supported infrastructure and radio equipment remains eligible for software updates and provides system server hardware refreshes as needed. MOTOTRBO Care simplifies managing licenses, support levels, renewals, and access to support, reducing your administrative burden and allowing you to focus less on managing your network and more on leveraging its performance.

LOWER TOTAL COST OF OWNERSHIP

MOTOTRBO Care consolidates the entire MOTOTRBO lifecycle software management cost into a predictable expense, with both one-time and yearly payment options. Control the costs of managing your systems based on your own budgeting needs and avoid major capital and periodic expenses with a predictable cost model. With fewer resources allocated to servicing your MOTOTRBO system, you can free up budget to keep your business thriving.

MAXIMIZE SYSTEM PERFORMANCE

MOTOTRBO Care allows you to maximize your long-term infrastructure investment into the MOTOTRBO platform by ensuring your supported system and radios have access to the latest software, preventing service interruptions. Take advantage of our most advanced features, new technologies, and integration functionality, and maximize the performance of your MOTOTRBO system.

FEATURES

- Flexible billing options, with coverage up to ten years
- Continuous software maintenance agreement coverage for supported subscribers and infrastructure
- Enhanced on-site support during the first software upgrade
- System server hardware refreshes for the following:
 - Capacity Max System Server
 - Edge Node server hardware
- Dedicated lifecycle management support from Motorola Solutions
- Rehosting repeater and server licenses
